ASCM NEW YORK–LONG ISLAND FORUM

## Leonard’s Palazzo, Great Neck

April 22, 2026 | 6:30 PM – 10:30 PM

ASCM NEW YORK–LONG ISLAND FORUM

# ABOUT THE EVENT

## About the Event

It is your chance to meet like-minded professionals seeking opportunities in a fun atmosphere for developing new networking relationships that you might not find throughout the year.

Enjoy yourself during the cocktail reception, followed by dinner, awards, speakers, music and more. We will also honor an organization that has helped our community in a substantial way, successfully breaking the barriers for others to succeed.

## Sponsorship Keeps the Vision Alive

ASCM (Association for Supply Chain Management) NYC LI Forum represents many leading organizations and brings together members and guests from over 50 companies. You will make invaluable contacts, explore innovative ways of thinking, and meet representatives of the most respected organizations on Long Island and the New York areas. You will network with visionaries and leading personnel including demand planning, sourcing and procurement, production, inventory management, distribution and reverse logistics, and technology management applications. Membership will provide discounts for events, networking, training credits, and certificate programs.

**Your sponsorship and attendance of this event will allow us to continue offering fantastic education programs, outreach to local campuses, local business tours, networking events and more throughout the year**

# ABOUT THE KEYNOTE SPEAKER

## Paul Tessy, Senior Vice President Purolator International

Paul Tessy is Senior Vice President, International at Purolator, where he leads the company's U.S., Mexico, and Canada cross-border business, global solutions, and value-added logistics services.

Since joining Purolator in 2019, Paul has focused on strengthening international networks, navigating trade complexity, and helping customers adapt to an increasingly dynamic global supply chain environment. With nearly four decades of global logistics and supply chain leadership, Paul has held senior executive roles across North America, Europe, and Latin America, including CEO for Latin America and Canada at DHL eCommerce and multiple leadership positions with TNT, culminating as President and CEO of TNT Spring Americas. His career has been defined by building resilient, customer-centric supply chains amid geopolitical uncertainty, regulatory change, and evolving consumer expectations. Paul holds a Bachelor of Applied Science in Industrial Engineering from the University of Toronto and has served on the Board of Directors of the U.S. Parcel Shipping Association.

# ABOUT THE KEYNOTE SPEAKER

## About the Topic

In his presentation, ***"Building Resilient Cross-Border Supply Chains,"*** Paul will delve into the impact of geopolitical instability, shifting trade policies, and regional realignment on global commerce. He will explore how these factors are compelling organizations to rethink their strategies for moving goods across borders. Furthermore, he will highlight the role of artificial intelligence and advanced analytics as critical enablers of resilience, driving smarter network design, predictive risk management, and faster decision-making across complex cross-border environments.

Paul will also emphasize the growing importance of sustainability in supply chains. He will discuss how decarbonization, responsible sourcing, and compliance-driven logistics have become essential for long-term competitiveness. By drawing on real-world examples, Paul will share practical strategies for building agile, resilient, and future-ready supply chains that balance speed, cost, compliance, and environmental responsibility in an increasingly uncertain world.

# ABOUT THE ATTENDEES
